

McMAHON
SERVICES

Crane & Rigging

We operate a modern fleet of cranes with a fully qualified and experienced team on hand to complete the most demanding of lifting projects

Capability

Crane & Rigging

McMahon Services boasts an impressive \$70 million network of company owned plant and equipment. Our modern fleet includes a wide variety of hire cranes with lifting capacities ranging from 25 tonnes to 250 tonnes, which can be mobilised across metro and regional Australia.

With over 30 years of expertise, our fleet is supported by highly skilled and experienced operators, each holding tickets and licences for specialised rigging services. Our riggers are also trained in asbestos removal and working in high risk environments such as confined spaces, also bearing the capacity to carry out complex critical lifts, including dual crane lifts.

All projects undertaken by the Crane and Rigging team undergo full risk assessments and lift studies to identify potential challenges and develop the right action plan.

- ▶ Industrial production facility decommissioning
- ▶ General construction crane lifts including; modular accommodation, tank system installation and pipework bundles, hoppers, structural steel, precast erection (building tilt-up) and signage installation
- ▶ Deconstruction and dismantling
- ▶ Heritage lifting
- ▶ Asbestos roofing and roof reinstatement
- ▶ Static Line System installation
- ▶ Specialist lifting and rigging services including; plant recovery and relocations
- ▶ 24/7 emergency response, including remote locations, train derailments and natural disasters
