

Optimum soil mixing. Maximum efficiency.

Komatsu RETERRA G-Mode BZ210-1

- ▶ Mobile soil conditioner
- ▶ Fast and accurate blending to both neutralise and stabilise contaminated soils
- ▶ Trusted solution for the treatment of Acid Sulphate Soils (ASS)
- ▶ Handles heavy marine sediments and accurately doses a wide range of reagents
- ▶ Dramatically increased production and soil improvement efficiency
- ▶ Dust-free and noise-free functions
- ▶ High quality mixing capability featuring 4 modes
- ▶ On-board computer controlled from the ground

- ▶ **Capacity Range -**
Maximum Speed - 150m³ p.h.
Minimum Speed - 40m³ p.h.
- ▶ **Additive Rate -**
0-400kg per m³

McMahon Services owns two of only a handful of these machines in Australia.

This revolutionary machine ensures the production of high quality recycled soil through a three-stage mixing process.

Demonstrating innovation at its best, McMahon Services can add an external feed hopper and conveyor system to dose high ratios of reagents, making the RETERRA G-Mode the ideal solution for projects of any size.

Our complete in-house service offered across Australia, includes:

- ✓ Float Transportation
- ✓ Transport Permits & Escort Services
- ✓ Wet Hire Options
- ✓ Highly Experienced Operators
- ✓ Servicing & Maintenance Workshops
- ✓ Mobile Site Service Trucks
