

A large yellow mobile concrete batching plant is shown from a low-angle perspective. The machine features a large rotating drum and various mechanical components. The brand name 'intract' is prominently displayed in black with a pink and blue swoosh above it, and 'Indigenous Contractors' is written below it. The model number 'DB 460' is visible on the side of the operator's cab. The background shows a clear blue sky and a white building.

Concrete - anytime,
anywhere.

Fiori DB 460 CBV Mobile Concrete Batching Plant

- ▶ Manufactures certifiable concrete in any location
- ▶ Easy to manoeuvre
- ▶ Eliminates the need for batching plants and concrete trucks on site
- ▶ Capacity - 4.0m³ / Output - 12-16m³ p.h.
- ▶ 4-wheel drive and cab steer capability ideal for footpath and kerbing work
- ▶ Weights located in loading bucket to ensure perfectly measured mix of water and materials
- ▶ In-cab computer system capable of storing up to 20 mix designs
- ▶ Ability to print dockets for all loads

McMahon Services is able to produce certifiable concrete across any of our job sites.

The unit comes with a bag splitter and hopper, conveyor hopper for 20kg bags, water tanks, and admixture tanks and pumps. The unit is also supported by our bobcat mounted concrete pump, manitou and forklifts, and a wide range of tippers for raw material deliveries.

Operated by Intract Indigenous Contractors, the machine can be mobilised to any location across Australia and is ideal for remote work. Intract can also assist you with meeting Indigenous engagement requirements.

The mobile batching plant is available for a supply only contract or is able to be supported by Ballestrin Construction Services for supply and place if required.
