

Powerscreen Warrior 1400 & 1800

## Powerscreen Warrior 1400 & 1800

## Warrior 1400

- Flexible screening machine
- Output potential 400t p.h.
- High performing, heavy duty, versatile machine and easily transportable
- Highly aggressive screen including bofor bars, finger screens, woven mesh and punch plates
- Jack-up screen and slide out tail conveyor for media access and hydraulic screen angle adjustment

## Warrior 1800

- High capacity screening, splitting and stockpiling machine
- Output potential 500t p.h.
- Capable of stockpiling quarrying, recycling, construction and demolition aggregates, and top soil applications
- Low ground pressure crawler tracks for easy mobility
- Versatile screen accepts wide range of media options

Both machines feature a 2 or 3 way split configuration, radio controlled tracking, dust supression, dual power and high capacity incline apron feeders.
