

Asbestos Waste Collection Services

- ✓ Supply of fully enclosed and lockable asbestos waste bins - 2m³ to 20m³
- ✓ Disposal of small quantities of non-friable asbestos reducing costs associated with high volumes of disposal
- ✓ Multiple site collection service undertaken periodically as required
- ✓ EPA waste tracking documentation will be completed and provided for all asbestos waste transport and disposal
- ✓ EPA and Dangerous Goods approved vehicles will be utilised for transport of all asbestos waste
- ✓ Assistance provided with the approval process to gain temporary storage of asbestos waste on premise
