Industrial Services

The following industrial services compliment our specialist shutdown works -

- ▶ Maintenance contracts
- ▶ High pressure cleaning
- ▶ Vacuum loading
- ▶ Abrasive cleaning
- ▶ Liquid spills
- ▶ Emergency response - fire/water damage, clean-ups
- ▶ Labour hire
- ▶ Waste management

McMahon Services has over 30 years' experience in delivering some of the most difficult industrial services projects across Australia.

From on-going maintenance contracts in the Port Pirie Lead Smelter in South Australia to a complex boiler house shutdown at the QAL site in Gladstone, Queensland - one of the world's largest alumina refineries, and removal of over 2.5 kilometres of friable asbestos pipe lagging and re-insulation works on a live plant in Gibson Island.

We apply our highly experienced and multi-disciplinary teams to our jobs, offering complete solutions with a single and trusted contractor.

Plant and Equipment

Our highly skilled team is equipped with the right tools for the job, with modern, company-owned plant and equipment.

From elevated platforms and scissor lifts, through to skid steer loaders, specialist asbestos removal equipment, wet vacuums, and the powerful VecLoader HEPA VAC.

VecLoader HEPA VAC 522 Magnum

This powerful industrial machine provides a premium vacuum solution. The four-stage filtration process allows for optimal waste management and safety.

The VecLoader handles both wet and dry waste, including asbestos and other contaminated solids and is ideal for high rise buildings through to confined spaces and crawl areas.
